

EAH Report June

- As far as construction updates, the contractor is working on completing the framing of the 3rd floor and will be starting the roofing soon.
- The CMU structure on the left side of the property is an exit stairway enclosure. It will be painted and integrated into the completed building. This stairway structure is required so that residents can exit the building safely in case of emergency.
- For ACA or other community members that are interested in joining the interest list for this project, the website is: www.eahhousing.org/aiea/ or if the website does not work, people can call: 808-439-6286 and request to be added to the interest list.
- Regarding the timing of construction completion, the project is scheduled for completion/resident move-in starting in October 2025, possibly sooner.
