Project Update

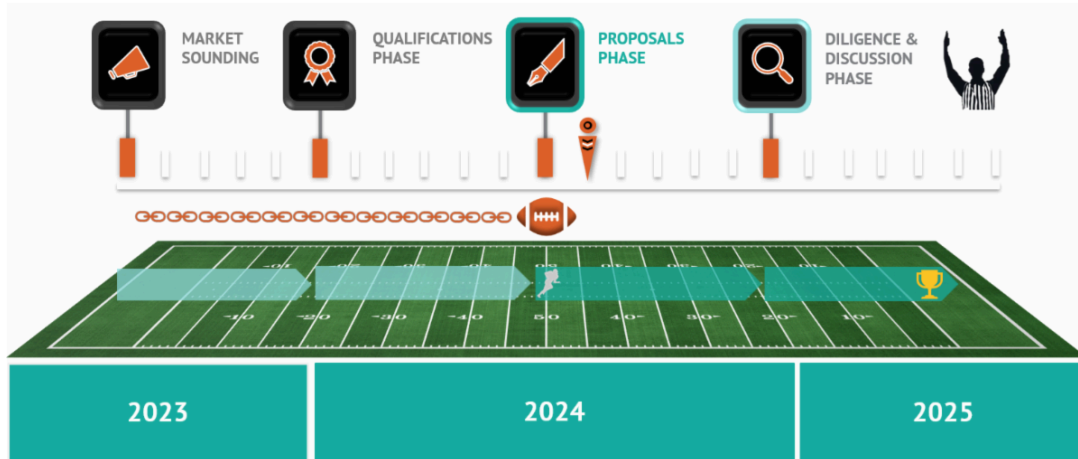

On May 6, the state facilitated a Community Engagement Conference at Aloha Stadium for the NASED project. The conference allowed community leaders from Neighborhood Board 18 (Āliamanu / Salt Lake / Foster Village), Neighborhood Board 20 (‘Aiea), and ‘Aiea Community Association to present their community’s aspirations, desires, and concerns to the priority-listed offerors. The conference also allowed the community leaders to respond to questions from the priority-listed offerors regarding the project. The conference was very well received by community leaders and priority-listed

offerors alike and we look forward to seeing community-focused initiatives in proposals later this year. To watch a video of the Community Engagement Conference, click [here](#).

The deadline for proposals will be in summer 2024, with the selection of a preferred offeror targeted for fall 2024, and final execution of an agreement targeted for summer 2025.

Further opportunities for the community to engage will be announced once the preferred offeror is selected later this year.

Businesses or organizations that would like to register their interest with the priority-listed offerors may submit their contact information on the “Doing Business with NASED” page on the project website: <https://nased.hawaii.gov/doing-business/>

FAQs

Q: How will the community be involved throughout the procurement process?

A: Active dialogue and coordination with the community are key to NASED’s success. As the project proceeds from planning through procurement, design, construction, operation and maintenance, the State will continue to engage with multiple constituencies from the local community to ensure their voices are heard and responded to.

Here are several ways the NASED project team plans to keep the community involved throughout the procurement process:

- Regular updates: Provide regular updates on the progress of the procurement process and any updates to NASED through community meetings and events, monthly newsletters, and the NASED website.
- During procurement: During the procurement process, the State held a community meeting in May 2024 with the shortlisted offerors to ensure they have a deep understanding and appreciation of the community’s aspirations, desires, and concerns for NASED. Further opportunities for the community to engage will be announced once the preferred offer is selected later this year.
- After procurement: The NASED developer will be required to establish and maintain a robust and genuine community engagement program throughout the life of NASED, including during the planning and design process, construction activities, and during operations.

Details of community meetings and events may be found at <https://nased.hawaii.gov/meetings-events/>.
